Content Analysis (VCA), also known as Intelligent Video Analytics (IVA) is the name given to the automatic analysis of CCTV images to create useful information about the content. An introduction to video content analysis â€œ industry guide -
Introduction There are numerous approaches for analysing qualitative data. Content analysis is used in many studies in nursing and it has a long history. Even if qualitative content analysis is generally used in nursing studies little has been published on how to apply the method. Information retrieval on the CINAHL and Ovid Medline(r) databases showed that con-tent analysis was often ...
